Vision

To promote the department of Electrical and Electronics Engineering as a pioneer in education and research by imparting quality education, creating and upgrading the academic facilities and inculcating professional values to the students to face the challenges in the dynamic global society.

Mission

- To attain utmost qualities of teaching-learning process and provide a vibrant environment for the students to exhibit their fullest potential in the field of Electrical and Electronics Engineering.
- To improve research and development skills among students towards providing technical solutions with ethical values to meet social challenges.
- To develop the students to face the technological requirements of the industry with professional values and make them employable and to impart the spirit of entrepreneurship for their successful career.

About Symposium

A National level technical symposium is conducted every year for the undergraduate and postgraduate students of Electrical and Electronics Engineering provides a forum for the engineering institution's students to exchange ideas and knowledge in order to stay current with changes. The event's main goal is to combine the knowledge of numerous academic fields and highlight the skills of its participants.

E-TALASH (TECHNICAL TREASURE HUNT)

E-TALASH is a new and exciting version of treasure hunt in which the team has to enact the given technical terms
